In 2007 the Kelenföld Power Station stopped functioning as a power supplier for Budapest, but at the same time, it became an interesting tourist attraction is partially abandoned, but its major attraction--the legendary control room and the old transformer house--open their doors occasionally and unveil their technological essence for guided groups.

Breathtaking art- deco control room of a now defunct thermal powerplant in Hungary. The oval glass roof was an easy bombing target during WW2, hence the construction of a small indoor concrete shelter for employees (the weird looking box house in the back). Luckily this powerplant survived all raids during WW2 and is here to ...
