Where is China Southern power grid deploying a 10 MWh sodium-ion battery?

China Southern Power Grid has deployed a 10 MWh sodium-ion battery in China's Guangxi Zhuang region. It is the first phase of a 100 MWh project. China Southern Power Grid Energy Storage, the energy storage division of China Southern Power Grid, has commissioned a 10 MWh sodium-ion battery storage station in Nanning, southwestern China.

What is China Southern power grid energy storage?

China Southern Power Grid Energy Storage, the energy storage division of China Southern Power Grid, has commissioned a 10 MWh sodium-ion battery storage station in Nanning, southwestern China. The company said the facility is the first large-scale project of its kind in China, and the first phase of a 100 MWh global project.

How many kilowatts is a new energy storage system?

The installed capacity of its new-type energy storage system will increase by 2 million kilowatts, 3 million kilowatts and 5 million kilowatts during the 14th, 15th and 16th Five-Year Plans respectively.

What is a 10 MWh sodium ion battery energy storage station?

The 10 MWh sodium ion battery energy storage station features 210 Ah sodium ion battery cells that can be charged to 90% in 12 minutes, according to the company. The system consists of 22,000 cells.

Figure 5: Trend of average bid price in energy storage system and EPC (2023.H1, unit: CNY/kWh) ... According to Wang Haohuai, director of the China Southern Grid Power Dispatch Center, "with energy storage's identity in the market defined, operator autonomy is increased. Otherwise, operations and settlement are limited by the entity to ...

China Southern Power Grid, one of the country's two major power grid operators, vows to invest 27 billion yuan (\$4.15 billion) in the upcoming five years in Hainan to come up with a 500-kilovolt transmission grid that covers the whole island, a new type of power system with new energy as the major contributor.

During its multi-faceted internal upgrade and transformation, China Southern Power Grid senior managers looked to bind together the integration and application of cutting-edge technologies such as cloud computing, big data, "Internet of things", mobile internet and artificial intelligence.

Shanghai-listed China Southern Power Grid Energy Storage Co Ltd said in an announcement today that one of its wholly-owned subsidiaries signed a cooperation framework agreement on February 26 in Guangzhou, Guangdong province, with NIO Energy Investment (Hubei) Co Ltd (Nio Power).. Nio Power is a wholly owned subsidiary of Nio and its legal ...
