

OPZV Tubular Gel Battery 2V420AH

Higher heat capacity and better thermal diffusivity in the solar system are the advantages of this 2v opzv tubular gel battery. Gel OPzV batteries provide superior float and cycle performance, with up to 20-year design life in renewable and stationary applications. The batteries feature impact-resistant ABS cases and sliding terminal poles to prevent long-term damage. Gel OPzV batteries are valve regulated, maintenance-free, and provide the lowest total cost of ownership.

OPzV 2V420AH has tubular positive plates and immobilized gel, which gives the battery high reliability and
stable performance. By using diecasted positive grid and patented active material formula, its new
performance shows much more stronger than the DIN standard values, meanwhile, it offers 20+ years design
life in float service.

The OPzV battery series with Tubular Gel technology is specially designed for stationary applications, totally
maintenance free, long service life, reliable performance in harsh conditions and excellent durability under
cyclic use, a real premium and cost effective energy solution.
