

What is HFP series solar charge inverter?

1. General information 1.1 Product overview and features HFP series is a new all-in-one hybrid solar charge inverter, which integrates solar energy storage & means charging energy storage and AC sine wave output. Thanks to DSP control and advanced control algorithm, it has high response speed, high reliability and high industrial standard.

What are the technical parameters of hfp4850s80-145?

Established in 2008, the headquarters of SRNE Solar Co., Ltd is located in Shenzhen, and the factory is located in Chang'an town of Dongguan. Our company is a state-level, high-tech enterprise and a world leading supplier that specializes in the R& D, production, sales, and service of off-grid photovoltaic products and solutions.
