Tile roofs add ...

The Trim Dek Support sits comfortably over the trapezoid profile of the roof and stands upright. EPDM rubber is already pre attached at the base which avoids any negative relations between roof metals to occur. The Trim Dek Support can be adjusted vertically and horizontally by loosening the bolt and nut in the centre of the piece.

Radiant is motivated to provide excellent customer service and innovative cost effective Solar Racking Solutions that save time and money for businesses that provide renewable energy solutions. Established in Brisbane in 2012, the early years were spent laying the groundwork for the intuitive understanding of customer needs that is the hallmark ...
